announcement to inform America of a new, not-to-be-ignored women's club. Well, not really a new club, because it has been around for as long as women have been taking care of business, families, and, of course, each other. The M Club is the ultimate how-to manual for any mature woman who is plain sick and tired of going unrecognized and being mistreated, or simply for those who want to revel in their "M-ness"! o We are sick and tired (mostly tired) of things in general going to hell in a handbasket.o We are intelligent, savvy women who know right from wrong.o Sometimes we have to "come over there" to help another member. Often we "go over there" in a big group so we can make an impression.o We help other M Club members because we want to and we are able. Next time, and there will be a next time, any woman is feeling overlooked or harangued, she can appeal to her sister-

members of the M Club to shift perspectives, take the reigns, and, well, take care of business. Women will love to give this incredibly funny and frank manual as a present, or even keep it around the home or office for their own reference and fun.

**☒All-Electric☒**

**Narratives** Rachele Dini 2021-10-07 ☒All-electric☒ Narratives is the first in-depth study of time-saving electrical appliances in American literature. It examines the literary depiction of refrigerators, vacuum cleaners, oven ranges, washing machines, dryers, dishwashers, toasters, blenders, standing and hand-held mixers, and microwave ovens between 1945, when the ☒all-electric☒ home came to be associated with the nation's hard-

won victory, and 2020, as contemporary writers consider the enduring material and spiritual effects of these objects in the 21st century. The appropriation and subversion of the rhetoric of domestic electrification and time-saving comprises a crucial, but overlooked, element in 20th-century literary forms and genres including Beat literature, Black American literature, second-wave feminist fiction, science fiction, and postmodernist fiction. Through close-readings of dozens of literary texts alongside print and television ads from this period, Dini shows how U.S. writers have unearthed the paradoxes inherent to claims of appliances' capacity to ☒give back☒ time to their user, transport them into a technologically-progressive future, or ☒return☒ them to some pastoral past. In so doing, she reveals literary appliances' role in raising

questions about gender norms and sexuality, racial exclusion and erasure, class anxieties, the ramifications of mechanization, the perils and possibilities of conformity, the limitations of patriotism, and the inevitable fallacy of utopian thinking--while both shaping and radically disrupting the literary forms in which they operated.
