Baja Oklahoma Dan Jenkins 2010-03-01 Dan Jenkins' second best-known novel, *Baja Oklahoma*, features protagonist Juanita Hutchins, who can cuss and politically commentate with the best of Jenkins' male protagonists. Still convincingly female, though in no way dumb and girly, fortyish Juanita serves drinks to the colorful crew patronizing Herb's Cafe in South Fort Worth, worries herself sick over a hot-to-trot daughter proving too fond of drugs and the dealers who sell them, endures a hypochondriac mother whose whinings would justify murder, dates a fellow middle-ager whose connections with the oil industry are limited to dipstick duty at his filling station—and, by the way, she also hopes to become a singer-songwriter in the real country tradition of Bob Wills and Willie Nelson. That Juanita is way too old to remain a kid with a crazy dream doesn't matter much to her. In between handing out longneck beers to customer-acquaintances battling hot flashes and deciding when boyfriend Slick is finally going to get lucky, Juanita keeps jotting down lyrics reflective of hard-won wisdom and setting them to music composed on her beloved Martin guitar. Too many of her early songwriting results are one-dimensional or derivative, but finally she hits on something both original and heartfelt: a tribute to her beloved home state, warts and all.

Fast Copy Dan Jenkins 2001-04-01 In 1935 Betsy Throckmorton's father lures her from a New York job with *Time* magazine back to Claybelle, Texas, with the promise that she can be the editor of his *Claybelle Standard-Times*. Betsy brings along her husband, Ted Winton, an easterner and Yale graduate to whom she is constantly explaining Texas. Ted will run Ben Throckmorton's radio station, KVAT, where *Booty and Them* Others sing in rivalry with the better known *WBAP Light Crust Doughboys*. In Texas, it's the middle of the Depression and the Drought. And Prohibition is barely over, liquor still a controversy. Every city has its hobo camp, and Claybelle has the Star of Hope Mission. But it is also the time of new oil money, high living, infidelity, and tangled love triangles. Betsy and Ted chain-smoke and drink often and long, they wouldn't miss a Paschal High School or TCU football game, they party at the Casino on Jacksboro Highway, and dine at Claybelle's Shadylawn Country Club. Betsy is a serious journalist though, and she sets out to change the paper, clashing with the managing editor when she claims international not state news belongs on page one.

She clashes with the columnists when she tries to sharpen their leads. The Texas Murder Machine becomes her big story, when she suspects that Texas Rangers may be killing innocent young men to collect rewards offered by the Texas Bankers Association. Betsy's journalistic determination leads to a personal tragedy that changes her life forever—and makes her a determined, relentless newswoman. *Fast Copy* is a page-turner that combines romantic comedy with the best of the thriller genre. But it's much more. Dan Jenkins captures Texas in the mid-1930s with a clarity that brings it alive, and his affection for Texas, Fort Worth, and TCU are revealed on every page. Only a native like Jenkins would include the minute details of a TCU-SMU game, the new zephyr stainless steel railroad train, the T&P railroad station, the Fort Worth Cats, and LeGrave Field. His portrait of Claybelle and its leading society folks is tongue-in-cheek funny and right on the mark. Texans should treasure this book for years to come.

Learning is a Verb Sherrie Reynolds 2017-05-12 This book explores a new way of thinking about teaching and learning. Its central goal is to help us understand how we think and learn; it will also help teachers understand children and offers a new and helpful perspective on the role of teaching. The book provides an orientation or way of thinking about the psychological dimensions of teaching and learning. This orientation is discussed in relation to cultural shifts that have influenced all fields of study; in education and psychology, the shift is reflected in the works of such scholars as Piaget, Vygotsky, Bruner, and others. Their work marks a change from a mechanical view of learning to a view of learning as dynamic transformation. In *Learning Is a Verb*, Sherrie Reynolds discusses how thinking about teaching and learning must change so that we can create conditions that help children think and interact with one another in helpful, healthy ways. Her engaging, conversational style, together with many examples and observations, will lead readers from reflection on their experiences to a deeper understanding of the changes needed in our educational system.

Shakespeare and Girls' Studies Ariane M. Balizet 2019-11-27 A modern-day Taming of the Shrew that concludes at a high school prom. An agoraphobic Olivia from Twelfth Night sending video dispatches from her bedroom. A time-traveling teenager finding romance in the house of Capulet. Shakespeare and Girls' Studies posits that Shakespeare in popular culture is increasingly becoming the domain of the adolescent girl, and engages the interdisciplinary field of Girls' Studies to analyze adaptation and appropriation of Shakespeare's plays in the late 20th and early 21st centuries. Through chapters on film, television, young adult fiction, and web series aimed at girl readers and audiences, this volume explores the impact of girl cultures and concerns on Shakespeare's afterlife in popular culture and the classroom. Shakespeare and Girls' Studies argues that girls hold a central place in Shakespearean adaptation, and that studying Shakespeare through the lens of contemporary girlhoods can generate new approaches to Renaissance literature as well as popular culture aimed at girls and young people of marginalized genders. Drawing on contemporary cultural discourses ranging from Abstinence-Only Sex Education and Shakespeare in the US Common Core to rape culture and coming out, this book addresses the overlap between Shakespeare's timeless girl heroines and modern popular cultures that embrace figures like Juliet and Ophelia to understand and validate the experiences of girls. Shakespeare and Girls' Studies theorizes Shakespeare's past and present cultural authority as part of an intersectional approach to adaptation in popular culture.

Innovating University Education Ssempebwa, Jude 2017-09-26 Makerere University started in 1922 as a humble technical school enrolling 14 day students of Carpentry, Building and Mechanics. Nine decades later, the University has made giant strides--enrolling over 35,000 students in over 145 study programmes hosted by nine colleges spread across various campuses. As one of the first higher education institutions in East and Central Africa, the university has had to contend with a multiplicity of issues, including relevance, curricula reform, community engagement and graduate employability; access, equity, massification and quality assurance; national politics, regulation, institutional autonomy and academic freedom; funding and financial management; student politics and activism; staff unionisation, management and brain drain; physical resources expansion, utilisation and maintenance; liberalisation, privatisation, commercialisation and internationalisation; Information and Communication Technology (ICT); and institutional leadership and integrity. Today, the University stands out proudly as a hallmark of innovation and excellence in teaching, research and community engagement, notwithstanding the challenges it has experienced over the years. As it celebrates 90 years, the higher education scholarly and policy fraternity take the opportunity to honour and continue the University's tradition of scholarship and innovation -- through contributing ideas for dealing with some of the challenges that the University and similar institutions are contending with. Although studies of Makerere University have been included, it must be understood that this book is not necessarily about the University. Additional studies have been drawn from Botswana, Ethiopia, Ghana, Kenya, Malawi, Nigeria, Tanzania and other institutions in Uganda.

Limo Dan Jenkins 2013-05-24 Decades before it saturated the airwaves, Dan Jenkins and Bud Shrake actually invented reality TV--and skewered it into a comic novel that was way ahead of its time. Frank Mallory is a big gun at one of the four major networks. Cruising around Manhattan in his "Silver Goblet," a Rolls Royce limo, he finds that life in the fast lane is beginning to unravel. Having to deal with the departure

of his wife, his boss "The Big Guy," and crazed Hollywood stars--while at the same time having to maintain a high-stakes job--all tend to make Frank Mallory, well, act out. After Frank struggles to fill all his number-four network's prime-time slots--it tends to lag behind CBS, NBC, and ABC--the Big Guy forces him to create a show called "Just Up The Street," which is meant to entertain ordinary Americans with the "real" lives of other ordinary Americans. Ultimately the resulting script causes the Big Guy's downfall and forces everyone else to return to a reality that comes without scare quotes. Limo is a hilarious, entertaining caricature of the lifestyle of the rich and famous, and provides a fascinating insight into the world of network television. Through a haze of booze and drugs, we see Frank's desperation for a normal life and real relationships. Frank Mallory's only true relationships are found in the confines of his Silver Goblet, where he finds friendship with D. Wayne Cooper and love with Sally Hawks. Only after a series of crises does Frank ultimately find himself--and the happiness that has eluded him. Originally published in 1976, Limo is now back in print, complete with a foreword from acclaimed author Jeff Guinn.

Moving Serafina Bob Cherry 2007 Late in life, Clayton Elliott faces long-deferred, hard choices.

Circumstances force him to bury his recently deceased wife, Adelita, in the little West Texas border town of Solitario instead of next to their three-year-old daughter on their hardpan ranch. To pay for Adelita's cancer treatments, Clayton sold this marginal ranchland to water developers. By reuniting Serafina with her mother in Solitario, Clayton hopes to assuage his guilt about her death twenty-five years earlier. However, whether Clayton moves Serafina immediately or ignores the contracted deadline, either act will trigger drilling into the aquifer for water. His lifelong friends are vehemently opposed to drilling. When a young Mexican woman mysteriously enters his life, Clayton must delay his efforts to move Serafina and surreptitiously help this woman who has illegally crossed into Texas. This decision also raises the ire of Clayton's friends. Throughout the novel, Clayton struggles with both the internal and external borders of his life. And the eccentric characters of Solitario find they, too, must confront their own geographical, psychological, and racial boundaries.

Dealing with Elusive Futures Noemi Steuer 2017-11-30 The time to come - as well as the exploration thereof - remains elusive for social actors and social scientists alike. The contributors accept the challenge to depict young men and women's future-creating activities in urban contexts of sub-Saharan Africa. Very consciously, they study young graduates having obtained a university degree and provide a vivid picture of their strategies to socially grow older by doing adulthood in contexts of great uncertainty. The examples include Burkina Faso, Guinea, Ethiopia, Mali and Tanzania, visually enriched through pictures taken by young Malian photographers.

Embodied Activities in Face-to-face and Mediated Settings Elisabeth Reber 2018-12-15 This edited book revisits the concept of social 'activities' from an interactional perspective, examining how verbal, vocal, visual-spatial and material resources are deployed by participants for meaning-making in social encounters. The eleven original chapters within this volume analyse activities based on video recordings of naturalistic and naturally occurring social encounters from face-to-face and mediated settings in Chinese, Dutch, English, French, and German. Informed primarily by the methodological approaches of Conversation Analysis and Interactional Linguistics, the authors study embodiment in space and time in three distinct types of situations: objects in space, complex participation frameworks, and affiliation and alignment. Moreover, the book includes a theoretical and methodological discussion of how activities are constituted and visibly embodied in interaction. It will be of interest to students and scholars in sociology and linguistics in general,

and face-to-face and mediated interaction in particular.

Contemporary Cases in U.S. Foreign Policy Ralph G. Carter 2008 Free Instructor's Manual available online at ccusfp.cqpress.com. Crafting foreign policy today is a pluralistic process--more actors are involved, partisan loyalties are stronger, and decisions made elsewhere impact the U.S. in significant ways. The president, members of Congress, interest groups, NGOs, the media, and bureaucratic actors all compete to influence the way U.S. foreign policy is shaped and implemented. Editor Ralph Carter captures this interplay with 15 recent real-world cases--five brand new to this third edition. Whether grappling with the controversy stemming from immigration reform, dealing with Iran's nuclear weapons program, exploring the impact of the WTO and export tax subsidies, or determining the rights of detainees in the war on terrorism, students are encouraged to question motives, consider alternatives, and analyze outcomes. Each case is consistently structured with a list of "before-you-begin" questions that frame the issues, introductory and background sections, a timeline of important events, and a descriptive list of key actors.

The Concept of Action N. J. Enfield 2017-10-12 When people do things with words, how do we know what they are doing? Many scholars have assumed a category of things called actions: 'requests', 'proposals', 'complaints', 'excuses'. The idea is both convenient and intuitive, but as this book argues, it is a spurious concept of action. In interaction, a person's primary task is to decide how to respond, not to label what someone just did. The labeling of actions is a meta-level process, appropriate only when we wish to draw attention to others' behaviors in order to quiz, sanction, praise, blame, or otherwise hold them to account. This book develops a new account of action grounded in certain fundamental ideas about the nature of human sociality: that social conduct is naturally interpreted as purposeful; that human behavior is shaped under a tyranny of social accountability; and that language is our central resource for social action and reaction.

Updates to the new edition include: Information and findings from recent studies, as well as new topics, including global public relations, culture and the media, and culture and the Internet. The Connected Child: Bring Hope and Healing to Your Adoptive Family Wendy Sunshine 2007-03-15 "An extremely useful parenting handbook... truly outstanding ... strongly recommended." --Library Journal (starred review) "A tremendous resource for parents and professionals alike." --Thomas Atwood, president and CEO, National Council for Adoption The adoption of a child is always a joyous moment in the life of a family. Some adoptions, though, present unique challenges. Welcoming these children into your family--and addressing their special needs--requires care, consideration, and compassion. Written by two research

psychologists specializing in adoption and attachment, *The Connected Child* will help you: Build bonds of affection and trust with your adopted child Effectively deal with any learning or behavioral disorders Discipline your child with love without making him or her feel threatened "A must-read not only for adoptive parents, but for all families striving to correct and connect with their children." --Carol S. Kranowitz, author of *The Out-of-Sync Child* "Drs. Purvis and Cross have thrown a life preserver not only to those just entering uncharted waters, but also to those struggling to stay afloat." --Kathleen E. Morris, editor of *S. I. Focus* magazine "Truly an exceptional, innovative work . . . compassionate, accessible, and founded on a breadth of scientific knowledge and clinical expertise." --Susan Livingston Smith, program director, Evan B. Donaldson Adoption Institute "The Connected Child is the literary equivalent of an airline oxygen mask and instructions: place the mask over your own face first, then over the nose of your child. This book first assists the parent, saying, in effect, 'Calm down, you're not the first mom or dad in the world to face this hurdle, breathe deeply, then follow these simple steps.' The sense of not facing these issues alone--the relief that your child's behavior is not off the charts--is hugely comforting. Other children have behaved this way; other parents have responded thusly; welcome to the community of therapeutic and joyful adoptive families." --Melissa Fay Greene, author of *There is No Me Without You: One Woman's Odyssey to Rescue Africa's Children*

Contemporary Cases in U.S. Foreign Policy Ralph G. Carter 2013-08-06 Many actors—from the president and members of Congress to interest groups, NGOs, and the media—compete to shape U.S. foreign policy. *Contemporary Cases in U.S. Foreign Policy: From Terrorism to Trade*, Fifth Edition, edited by Ralph G. Carter, captures this strategic interplay using 15 real-world cases, of which four are brand new: the death of Osama bin Laden and the use of targeted assassinations, nonproliferation policy and the U.S.–India nuclear agreement, the U.S. reaction to Egypt's collision with the Arab Spring, and the surprise asylum request of blind Chinese dissident Chen Guangcheng. Fully updated to cover the Obama administration, all cases have been revised to reflect recent developments. Whether grappling with use-of-force questions, the international financial crisis, legal and human rights, trade issues, multilateral approaches to the nuclear programs of North Korea and Iran, or climate change, Carter's engaging case study approach encourages students to question motives, consider alternatives, and analyze outcomes.

Conversational structures of Alto Perené (Arawak) of Peru Elena Mihás 2017-01-19 Drawing on extensive fieldwork in the research community, the book is a focused exploration of discourse patterns of Alto Perené Arawak, with emphasis on conversational structures. The book's methodological scaffold is based on proposals and insights from multiple research fields, such as comparative conversation analysis, sociology, interactional linguistics, documentary linguistics, anthropological linguistics, and prosodic typology. The interactional patterns of a small Arawak language of Peru are shown to share the common infrastructure reported in the organization of conversation across other languages and cultures. Yet the analysis demonstrates a variety of unique nuances in the organization of interactional behavior of Alto Perené Arawak participants. The peculiarities observed are attributed to the language-specific semiotic resources and participants' orientation to the local cultural norms. The book's structured examination of conversational data of a small indigenous language of South America is anticipated to be of utility to linguistic research on understudied non-Western languages.
