The Wisdom of Life Arthur Schopenhauer 2007-06-01 In this essay from Schopenhauer final work, "Parerga und Paralipomena" (1851), the philosopher favors individual strength of will and independent, reasoned deliberation over the

tendency to act on irrational impulses. He examines the ways in which life can be arranged to derive the highest degree of pleasure and success.

To Understand What Is Happening. Essays on Balance: There Is Something Out There. It Is Nothing, Yet, It Is Everything. It Is Eternal. Richard A. Frank 2016-04-27 Essays on Balance is a collection of thirty-three essays that explores possible answers to that one guiding question: Why is the world the way it is? Split into two parts, it explores first the most fundamental questions about the workings of

nature-energy, entropy, time, space, change, life, and the universe-and it investigates them in a way that both laypersons and experts will enjoy reading. In the second part, considerations about human nature are explored as they relate to the self, the collective self, virtue and vice, religion, politics, free will, good and evil, and the concept of God. Approaching these considerations from an innovative worldview, it explains both nature and human nature as an indissoluble whole bound by the universal laws of balance.

Philosophical Essays on Free Stuff Robyn

Ferrell 2021-01-15 There is free thought, free choice, the free world - and then there is free stuff. By tracking the transformations of just one idea, "free," this book describes an arc of thought through a "revaluation of values" and offers its critique in the same gesture.

Questions on Wittgenstein (Routledge Revivals)

Rudolf Haller 2014-05-01 Wittgenstein, possibly the most influential philosopher of the twentieth century, is often labelled a Neopositivist, a New-Kantian, even a Sceptic. *Questions on Wittgenstein*, first published in 1988, presents a selection of nine essays investigating a matter of vital philosophical importance: Wittgenstein's relationship to his Austrian predecessors and peers. The intention throughout is to determine the precise contours of Wittgenstein's own thought by situating it within its formative context. Although it remains of particular interest to Anglo-Saxon philosophers, special familiarity with Austrian philosophy is required to appreciate the subtle and profound influence

which this cultural and philosophical setting had on Wittgenstein's intellectual development. Professor Haller has spent his career exploring these themes, and is one of the foremost authorities on both Wittgenstein and contemporary Austrian philosophy. *Questions on Wittgenstein* thus offers a unique insight into the twentieth-century tradition of Austrian philosophy, and its importance for Wittgenstein's thought.

Reading Ji Kang's Essays David Chai
2021-09-10 This is the first English-language book on the philosophy of Ji Kang. Moreover, it offers the first systematic treatment of his philosophy, thus filling a significant gap in English-language scholarship on early medieval Chinese literature and philosophy. David Chai brings to light Ji Kang's Neo-Daoist heritage and explores the themes in his writings that were derived from classical Daoism, most notably the need for humanity to return to a more harmonious co-existence with Nature to further our own self-understanding. His analysis is unique in that it balances translation and annotation with expositing the creative philosophizing of Neo-Daoism. Chai analyzes the entirety of Ji Kang's essays, exploring his philosophical reflections on music, aesthetics, ethics, self-cultivation, and fate. Reading Ji Kang's Essays will be of interest to scholars and students of Chinese philosophy and literature. It offers the first comprehensive philosophical

examination of a heretofore neglected figure in Neo-Daoism.

Essays on the Essay Film Nora M. Alter
2017-03-14 The essay—with its emphasis on the provisional and explorative rather than on definitive statements—has evolved from its literary beginnings and is now found in all mediums, including film. Today, the essay film is, arguably, one of the most widely acclaimed and critically discussed forms of filmmaking around the world, with practitioners such as Chris Marker, Hito Steyerl, Errol Morris, Trinh T. Minh-ha, and Rithy Panh. Characteristics of the essay film include the blending of fact and fiction, the mixing of art- and documentary-film styles, the foregrounding of subjective points of view, a concentration on public life, a tension between acoustic and visual discourses, and a dialogic encounter with audiences. This anthology of fundamental statements on the

essay film offers a range of crucial historical and philosophical perspectives. It provides early critical articulations of the essay film as it evolved through the 1950s and 1960s, key contemporary scholarly essays, and a selection of writings by essay filmmakers. It features texts on the foundations of the essay film by writers such as Hans Richter and André Bazin; contemporary positions by, among others, Phillip Lopate and Michael Renov; and original essays by filmmakers themselves, including Laura Mulvey and Isaac Julien.

De lengte van het leven Seneca 2012-06-29

Druk, druk, druk. Dagen en jaren vliegen voorbij. Wat is het leven toch kort! Het zijn veel gehoorde uitspraken, maar de Romeinse filosoof Lucius Annaeus Seneca vindt ze absolute onzin. In De brevitae vitae ('Over de korthed van het

leven') verklaart hij zich nader. Het leven te kort? Welnee, het duurt lang genoeg. Maar dan moet je je tijd wel goed gebruiken, bijvoorbeeld door grote denkers te lezen: zo krijg je letterlijk eeuwen erbij. Maar de meeste mensen verspillen hun tijd en komen niet toe aan werkelijk leven. In fraaie anekdotes over beroemde en minder beroemde Romeinen gaat het over tomeloze ambities en winstbejag, over domheid en verveling. En over het eindeloos uitstellen van goed leven tot 'later'. De kritiek klinkt soms verrassend modern. Zo is Seneca streng voor mensen die de hele dag alleen maar bezig zijn met 'balspel'. Of in de zon liggen. Gebruik je tijd verstandig, blijf zelf de baas ervan, kies voor het hier en nu. Wie De lengte van het leven leest heeft geen cursus timemanagement meer nodig. Ethics in the Real World Peter Singer
2016-09-20 Peter Singer is often described as the world's most influential philosopher. He is also one of its most controversial. The author of important books such as *Animal Liberation*, *Practical Ethics*, *Rethinking Life and Death*, and *The Life You Can Save*, he helped launch the animal rights and effective altruism movements and contributed to the development of bioethics. Now, in *Ethics in the Real World*, Singer shows that he is also a master at dissecting important current events in a few hundred words. In this book of brief essays, he applies his controversial ways of thinking to issues like climate change, extreme poverty, animals, abortion, euthanasia, human genetic selection, sports doping, the sale

of kidneys, the ethics of high-priced art, and ways of increasing happiness. Singer asks whether chimpanzees are people, smoking should be outlawed, or consensual sex between adult siblings should be decriminalized, and he reiterates his case against the idea that all human life is sacred, applying his arguments to some recent cases in the news. In addition, he explores, in an easily accessible form, some of the deepest philosophical questions, such as whether anything really matters and what is the value of the pale blue dot that is our planet. The collection also includes some more personal reflections, like Singer's thoughts on one of his favorite activities, surfing, and an unusual suggestion for starting a family conversation over a holiday feast. Provocative and original, these essays will challenge—and possibly change—your beliefs about a wide range of real-world ethical questions.

As Radical as Reality Itself Matthew Beaumont
2007 This collection of essays, by a number of

established scholars and artists, proposes new directions for Marxist cultural theory and the criticism of modern visual culture. It addresses a diverse range of topics, including the state and revolution, Communist and post-Communist aesthetics, Situationist thought and the avant-garde, subjectivity and commodification, and the politics and problems of contemporary artistic practice. The contributions also consider several other pressing questions in the visual arts, from the practice of digital culture to appropriations of critical theory, from the relations of art and the spectacle to architecture in the age of global modernity. This book on Marxism and art is not offered in a spirit of nostalgia: on the contrary, it testifies to the continuing vitality and confidence of historical materialist thought in the field of cultural theory and practice in the 21st century.

Language As Symbolic Action Kenneth Burke
1966 From the Preface: The title for this
collection was the title of a course in literary
criticism that I gave for many years at
Bennington College. And much of the material
presented here was used in that course. The title
should serve well to convey the gist of these

various pieces. For all of them are explicitly concerned with the attempt to define and track down the implications of the term "symbolic action," and to show how the marvels of literature and language look when considered from that point of view.

Reading Essays George Douglas Atkins

2008-01-01 Approaches abound to help us beneficially, enjoyably read fiction, poetry, and drama. Here, for the first time, is a book that aims to do the same for the essay. G. Douglas Atkins performs sustained readings of more than twenty-five major essays, explaining how we can appreciate and understand what this currently resurgent literary form reveals about the "art of living." Atkins's readings cover a wide spectrum of writers in the English language--and his readings are themselves essays, gracefully written, engaged, and engaging. Atkins starts with the earliest British practitioners of the form, including Francis Bacon, John Dryden, Alexander Pope, and Samuel Johnson.

Transcendentalist writers Henry David Thoreau and Ralph Waldo Emerson are included, as are works by Americans James Baldwin, Zora Neale Hurston, and E. B. White. Atkins also provides readings of a number of contemporary essayists, among them Annie Dillard, Scott Russell Sanders, and Cynthia Ozick. Many of the readings are of essays that Atkins has used successfully in the classroom, with undergraduate and graduate students, for many years. In his introduction Atkins offers practical advice on the specific demands essays make and the unique opportunities they offer, especially for college courses. The book ends with a note on the writing of essays, furthering the author's contention that reading should not be separated from writing. Reading Essays continues in the tradition of such definitive texts as Understanding Poetry and Understanding Fiction. Throughout, Atkins reveals the joy, delight, grace, freedom, and wisdom of "the glorious essay."

The Form of Things A.C. Grayling 2010-12-09
The bestseller from our pre-eminent philosopher, A.C. Grayling 'Grief and loneliness, depression, despair and failure - those things are the common human lot at least at times in all our lives'. Yet it is philosophy which, while not providing an answer to these problems, can enable us to prepare for them, and create strategies with which to deal with them. It is only through reflecting upon the world around us, reading, thinking, questioning, enjoying, that we can inculcate understanding, tolerance and importantly the courage to live our lives. It is our responsibility to live such 'considered lives' and to realise that we are authors of a narrative that can be shaped and controlled. This is the fifth in a series of essay miscellanies from our foremost philosopher A.C. Grayling, reflecting upon the form of our world and its multiplicity. The essays are grouped by theme into reflections upon life and the standards we live by, including vivid polemics and perceptive pieces on significant

thinkers, contemporary rights and liberties issues. This book brilliantly articulates the philosophical debate and reflection that is needed to prepare us for life in the twenty-first century.

[English Mechanic and World of Science](#) 1869

De gegevenheid der dingen Marilynne Robinson 2016-12-13 De geest van onze tijd lijkt er een te zijn van vreugdeloze urgentie. In plaats van het verkennen van onze glorieuze geest, zijn we meer geïnteresseerd in technologieën en middelen die ons materieel welzijn bezorgen. Hoewel cultuurpessimisme de mode is, toont Marilynne Robinson dat onze toekomst gelukkig nog genoeg hoop en vertrouwen geeft. In De gegevenheid der dingen weet ze onze huidige maatschappij feilloos te doorgronden en ze laat zien wat humanisme, filosofie, calvinisme, theologie en (angst)cultuur ons gebracht hebben, en wijst ons nieuwe richtingen. Ze vraagt ons eerbied te hebben voor wie en wat we zijn: wezens van belang en waarde, ondanks

onze dwalingen en vergissingen.
