Dodd's Church History of England, Vol. 1

M. A. Tierney 2018-03-21 Excerpt from Dodd's Church History of England, Vol. 1: From the Commencement of the Sixteenth Century to the Revolution in 1688; With Notes, Additions, and a Continuation There are so many obstacles in the way, which hinder both authors and readers from making their labours profitable either to themselves, or to the rest of man kind, that it is as hard a task to prescribe rules to the one, as it is to please the other. So many things hap pen to bias our opinions, and vitiate our taste, that the strongest resolutions of impartiality will prove insignificant, unless we be carefully guarded against those temptations, whereby men are not only daily surprised, but, as it were, driven, into errors and mistakes. Ignorance, education, religion, passion, and party-disputes, are in a kind of confederacy to seduce mankind. Under their influences, we become both writers and readers, and place ourselves on the bench of judges; though, for the most part, but very indifferently qualified. Three things are required to complete

the character of a judge - authority, skill, and integrity. Without authority, his sentence is void; without skill, it is rash; and without integrity, it is unjust. I will not dispute the common right of opining, where nature seems to have given a general commission: but the other two qualifications are frequently wanting. The History of England During the Middle Ages, Vol. 1 of 4 Sharon Turner 2016-10-25 Excerpt from The History of England During the Middle Ages, Vol. 1 of 4: Comprising the Reigns From the Norman

Conquest to the Accession of Edward the Third However this may be, as to mankind in general, there can be no question, that the British population has been, from the landing of William the Conqueror, in a state of progressive amelioration. This ascertainable fact affords the most cheering prospects of our future character and destinies. That progression which has been effected when obstacles innumerable existed to retard it, cannot but be more brilliantly operative now, when its attainment has put in action more numerous causes and more active instruments for the. HIST OF ENGLAND David 1711-1776 Hume 2016-08-26

The History of England, Vol. 1 of 2 James Mackintosh 2016-06-30

The Literary History of England, Vol. 1 of 3 Margaret O. W. Oliphant 2015-07-09 Excerpt from The Literary History of England, Vol. 1 of 3: In the End of the Eighteenth and Beginning of the Nineteenth Century It is with diffidence that the Author of the following volumes offers them to the public. The subject is a great one, and so manifold in its details that it is impossible not to have made omissions in various quarters: and especially in those on which she can pretend to least knowledge, in the graver literature of Science and Philosophy. It was intended originally that the work should extend farther, and come down to the elder figures even of our own times, the poets who are now regnant in England, and the many eminent writers who have but just departed; but the period before our own, which has formed them and us, and which reaches into our own by so many survivals, was found too rich and ample to allow of further additions. A Child's History of England, Vol. 1 Charles Dickens 2017-05-27 Excerpt from A Child's History of England, Vol. 1: England From the Ancient Times, to the Reign of Henry the Fifth If you look at a Map of the World, you will see, in the left-hand upper corner of the Eastern Hemisphere, two Islands lying in the sea. They are England and Scotland, and Ireland. England and Scotland form the greater part of these Islands. Ireland is the next in size. The little neighboring islands, which are so small upon the Map as to be mere dots, are chiefly little bits of Scotland - broken off, I dare say, in the course of a great length of time, by the power of the restless water. History of England, Vol. 1 James Anthony Froude 1870

History of England Under Henry the Fourth, Vol. 1 James Hamilton Wylie 2017-10-12

Excerpt from *History of England Under Henry the Fourth, Vol. 1: 1399-1404* The materials for this volume have been put together during the broken intervals of a busy official life, often at a distance from original sources of information. They have taken more than twelve years to collect, and, if, after all, they shall seem trivial and unimportant, compared with the amount of time and labour which it has cost to gather them together, my apology for publishing them must be that the ground has not been thoroughly worked before. I do not pretend to enunciate a political principle or advocate a social theory; I merely attempt to decipher some facts from the life of the people of England in the dimness of a forgotten past.

The History of England, Vol. 1 of 2 Emily Cooper 2018-03-17 Excerpt from The History of England, Vol. 1 of 2: From the Landing of Caesar to the Reign of Victoria The division into separate reigns appears to me more distinct, for those at least not well acquainted with the course of events, than the sections adopted by Mr. Green, in his learned and valuable compendium. In the spelling of proper names I have followed the examples of Lingard and Hallam. A short Appendix to the First Volume contains a sketch of the life of St. Patrick, the Apostle of Ireland, and some information concerning the first promulgation of Christianity in the British islands, which may, I hope, be interesting to my readers. History of England, Vol. 1 (Classic Reprint) Sir Francis Palgrave 2016-06-13 Excerpt from History of England, Vol. 1 My dear Friend, The volume which I have now the satisfaction of transmitting and inscribing to you, as a sincere, though very inadequate testimony of my respect and regard, has been much altered in plan, since I was employed upon it at your residence. The chapters which you then perused, were intended to constitute a selection of incidents and passages from English history, in professed imitation of the admirable model furnished by the 'Tales of a Grandfather.' As I proceeded, however, I became more and more inclined to complete the annals of our country. One chasm in the series was filled up after another, and the narrative, having been composed, de-composed, and re-composed, assumed the shape in which it is now offered to you. That a work, originating under such circumstances, should present some variations of style and manner in its different parts, may, perhaps, be anticipated by the reader, and pardoned by the critic; nor am I, on the whole, inclined to regret them. [A History of England from the First Invasion](#)

by the Romans to the Accession of Henry 8.
By the Rev. John Lingard. Vol. 1. [-8.] John
Lingard 1830

History of England, Vol. 1 of 3 Lord Mahon
2015-09-27 Excerpt from History of England,
Vol. 1 of 3: From the Peace of Utrecht to the
Peace of Aix-La-Chapelle The era of the
Georges in England may be compared to the
era of the Antonines at Rome. It was a
period combining happiness and glory - a
period of kind rulers and a prosperous
people. While improvement was advancing
at home with gigantic strides, while great
wars were waged abroad, the domestic
repose and enjoyment of the nation were
scarce for a moment ever broken through.
The current was strong and rapid, but the
surface remained smooth and unruffled.
Lives were seldom lost, either by popular
breaches of the law or by its rigorous
execution. The population augmented fast,
but wealth augmented faster still: comforts
became more largely diffused, and
knowledge more generally cultivated. Unlike
the era of the Antonines, this prosperity did
not depend "on the character of a single
man." Its foundations were laid on ancient
and free institutions, which, good from the
first, were still gradually improving, and
which alone, amongst all others since the
origin of civil society, have completely
solved the great problem how to combine
the greatest security to property with the
greatest freedom of action. It is true,
however, that this golden period by no
means affords us unmixed cause for self-
congratulation, and contains no small alloy
of human frailties and of human passions.
Some of the quiet I have mentioned may be
imputed to corruption, as much as some of
the troubles to faction. About the Publisher

Cassell's Illustrated History of England,

Vol. 1 2016-09-07 Excerpt from Cassell's
Illustrated History of England, Vol. 1: From
the Earliest Period to the Reign of Edward
the Fourth HE preceding edition of this
History has been most carefully corrected
and revised, and the Publishers are thankful
that the present one has not failed of a
success more than equal to that which had
attended its predecessor. The expecta tion
which led them originally to publish and now
to issue this revised edition of a history of
this great country so as to meet the want of
the great masses which compose so large a
portion of it, has not been disappointed. It is
almost as vain to write the praises of history
as it is unnecessary to write its apology.
Whatever doubts may be entertained as to
the merits of the classics as a means of
education, history stands above all
suspicion, and is pre-eminent not only as a
means, but even as an end of knowledge.
We may regard history as in some sort the
story of ourselves under circumstances
different from those in which it finds us;
which circumstances, however, time often
repeats with remarkable similitude of detail.
It is, indeed, more than this; it is the
narrative of national as well as of individual
life, and - in a higher aspect still - it is the
narrative of the great human race. But even
if we look on it only as a vast collection of
biographies, we can hardly exaggerate the
importance of its voice to us. It teaches its
votary something of himself and of his kind
which the profoundest philosopher without it
could never know. If we except Nature and
Revelation, what else is there beyond the
domain of history? Indeed, it is the
complement of these, and with these fills up
all experience and all thought. But if this be
true of universal history, it is true in a sense
more confined and yet more intense of the
history of our own country. The exceeding
interest of this latter will let none of us

escape. It is our text-book in childhood, but we have not grasped its Wisdom or exhausted its pleasure in age. We delight in it, not merely because it tells of our own fathers and our own homes, but because it, more than any other, presents the broad surface of the people; because it is concerned, not only with kings, and statesmen, and warriors, but with the toilers at the plough, and at the counter, and at the desk - with the great middle class, whose growth in extent and power forms so large a portion of its page; because it exhibits a unity of design and a continuity of action which is not so patent, even if it exists, elsewhere; because it leads by marked gradations through the practical logic of great principles to that national product which we now enjoy with so much pride and satisfaction; because it is the voice of a people whose language is more wide-spread and more potent in the ears of friends and foes than that of any tongue on earth, and is enriched with science and with song to which few others can aspire. The History of England (Vol. 1-6) David Hume 2019-04-04 The History of England is David Hume's great work on the history of England, which he wrote in while he was librarian to the Faculty of Advocates in Edinburgh. It was published in six volumes. The History spanned "from the invasion of Julius Caesar to the Revolution of 1688" and went through over 100 editions. Contents:

The Britons. The Romans. The Britons. The Saxons. The Heptarchy The Kingdom of Kent The Kingdom of Northumberland The Kingdom of East Anglia The Kingdom of Mercia The Kingdom of Essex. The Kingdom of Sussex. The Kingdom of Wessex. Egbert. Ethelwolf. Ethelbald and Ethelbert. Ethered Alfred. Edward the Elder. Athelstan. Edmund. Edred Edwy Edgar Edward the Martyr Ethelred Edmond Ironside Canute Harold Harefoot Hardicanute Edward the Confessor Harold William the Conqueror. Henry III. Edward I. Edward II. Edward III. Richard II. Henry IV Henry V. Henry VI. Edward IV. Edward V. And Richard III. Richard III. William Rufus. Henry I. Stephen. Henry II. Richard I. John. The Feudal and Anglo-Norman Government and Manners Henry VII. Henry VIII. Edward VI. Mary. Elizabeth. James I. Charles I. The Commonwealth Charles II. James II. The History of England, Vol. 1 of 2 Oliver Goldsmith 2018-02-13 Excerpt from The History of England, Vol. 1 of 2: From the Earliest Times to the Death of George II To attain the greatest number Of advantages fewest inconveniences. Is all that can be attain abridgment, the very name of which implies imperfection It. Will be sufficient, therefore, to satisfy the writer's wishes, if the present work be found a plain unaffected narrative of facts, with just ornament enough to keep attention awake, and with reflection barely sufficient to set the reader upon thinking - Very moderate abilities were equal to such an undertaking; and it is hoped the performance will satisfy such as take up books to be informed or amused, Without much considering who the writer is, or envying any success he may have had in a former compilation. A History of England, Vol. 1, by Edward P. Cheyney Edward P Cheyney 1926

The History of England Part F David Hume 2020-07-29 Reproduction of the original: The History of England Part F by David Hume

A History of England, Volume 1 Clayton Roberts 2016-07-01 This two-volume narrative of English history draws on the most up-to-date primary and secondary research, encouraging students to interpret the full range of England's social, economic, cultural, and political past. *A History of England, Volume 1 (Prehistory to 1714)*, focuses on the most important developments in the history of England through the early 18th century. Topics include the Viking and Norman conquests of the 11th century, the creation of the monarchy, the Reformation, and the Glorious Revolution of 1688.

History of England; Vol. 1 from the earliest times to the reformation G. M. Trevelyan 1952

A Literary History of England Albert C. Baugh 2003-09-02 The paperback edition, in four volumes, of this standard work will make it readily available to students. The scope of the work makes it valuable as a work of reference, connecting one period with another and placing each author clearly in the setting of his time. Reviewing the first edition, *The Times Literary Supplement* commented: 'in inclusiveness and in judgment it has few rivals of its kind'. This first volume covers The Middle Ages (to 1500) in two sections: The Old English Period (to 1100) by Kemp Malone (John Hopkins University), and The Middle English Period (1100-1500) by Albert C. Baugh (University of Pennsylvania).

The Constitutional History of England, Vol. 1 William Stubbs 2017-11-21 Excerpt from *The Constitutional History of England, Vol. 1:*

In Its Origin and Development These show the unbroken possession of the land thus occupied, and the growth of the language and institutions thus introduced, either in purity and unmolested integrity, or, where it has been modified by antagonism and by the admixture of alien forms, ultimately vindicating itself by eliminating the new and more strongly developing the genius of the old. The History of England David Hume
2020-07-16 Reproduction of the original:
The History of England by David Hume
The History of England, Vol. 1 of 2 (Classic Reprint) Thomas Keightley 2016-08-23
Excerpt from The History of England, Vol. 1 of 2 The animal nature of man has, until within a comparatively recent period, held the chief sway in all political relations, and the settlement of political disputes. By the animal nature is here simply meant the impulses which lead to the love of acquisition and the glory of the battle-field, - both as purely animal impulses as any that mark the beasts that perish; both happily, now, though only very recently, reduced, in all most civilized communities under subjection to the moral and intellectual nature of man. Hence, in such political histories, battles and their details are too frequent. Nations, until a very recent period, have invariably had recourse, in the settlement of all disputes, to the barbarous form of wager of battle, to decide the right, although, by the express laws of almost every nation in Europe, wager of battle between individuals has been long abolished. It is extraordinary that so barbarous and absurd a custom should have been thus so inconsistently persevered in, in the one case, while it has been abolished in the other. The public mind in England is, however, at the present time, in general, as much opposed to the appeal to this antiquated ordeal in the one case as the other; and it is to be hoped that the page of the future historian will abound chiefly in details of the moral and intellectual history of that as well as other nations; and that the history of society, of science, and of literature, will take high precedence of the history of politics. Meantime, the history of the politics of every nation must be studied by 'all who would observe the advance of nations, or truly understand their actual condition. More especially is that study important in respect of those nations where, as in England, the struggle between general independence and assumed individual prerogative, has been long continued and eventful, though crowned at last with noble

and glorious success. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works."

The History of England, Vol. 1 Of 10 John Lingard 2017-11-12 Excerpt from The History of England, Vol. 1 of 10: From the First Invasion by the Romans to the Accession of William and Mary in 1688 Since the year 1819, in which the first portion of this work was sent to the press, many new sources of information have been opened to the writer of English history. From time to time ancient documents of high interest and indisputable authority have been rescued from oblivion by searches made under the auspices of the Record Commission, or through the zeal and enterprise of literary societies, and of private individuals. It has been my endeavour to embody the substance of all such discoveries in this present library edition, not indeed by the introduction of notes or dissertations at corresponding epochs, but by interweaving the new matter with the old in one continuous narrative throughout the work. At the same time I have availed myself of the opportunity to fix the dates of events with greater precision, to correct former errors of the pen and of the press, and to alter certain paragraphs, occasionally whole chapters, of the last edition, by recasting or expanding them in conformity with the improvements which I wished to introduce. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a

reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

CHILDS HIST OF ENGLAND Charles 1812-1870 Dickens 2016-09-10 [History of England, Vol. 1, Ch. 2 \(Audio\)](#) [History of England Under Henry the Fourth, Vol. 1](#) James Hamilton Wylie 2015-06-16 Excerpt from History of England Under Henry the Fourth, Vol. 1: 1399-1404 The materials for this volume have been put together during the broken intervals of a busy official life, often at a distance from original sources of information. They have taken more than twelve years to collect, and, if, after all, they shall seem trivial and unimportant, compared with the amount of time and labour which it has cost to gather them together, my apology for publishing them must be that the ground has not been thoroughly worked before. I do not pretend to enunciate a political principle or advocate a social theory; I merely attempt to decipher some facts from the life of the people of England in the dimness of a forgotten past. My acknowledgments are due to the officials of the Public Record Office for much courtesy and help received from them in the Search Room in London, and I venture to express regret that so little attention has been yet directed to the Archives of the 15th century, especially since the publication of the valuable series of Original Letters, edited under the direction of the Master of the Rolls, by the Rev. F. C. Hingeston, some twenty-four years ago. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. The History of England, Vol. 1 David Hume 2017-10-20 Excerpt from The History of England, Vol. 1: From the Invasion of Julius Caesar to the Revolution in 1688 It is difficult for a man to speak long of himself without vanity; therefore, I shall be silent. It may be thought an instance of vanity that I pretend at all to write my life; but this Narrative shall contain little more than the History of my Writings; as, indeed, almost all my life has been spent in literary pursuits and occupations. The first success of most of my writings. Was not such as to be an object of vanity. About the Publisher Forgotten Books publishes hundreds of thousands of

The History of England, Vol. 1 Catharine Macaulay 2016-06-27 Excerpt from The History of England, Vol. 1: From the Accession of James I. To the Elevation of the House of Hanover Lives attacked the formidable prewar. Lions of the Stewart family, and feif the banners of Liberty again a tyranny which had been established for a series of more than one hundred and fifty years ago; and this by the exertion of faculties, which, if compared with the barren produce of modern times, appear 'more than human. Neglected is not the only crime committed against these characters Party prejudice, and the more detestable principle of private interest; have painted the memoirs of past times in false light, that it is with difficulty we can trace features, which, if justly described, would exalt the virtues of this country beyond the fame of any set of men, which the annals of other nations can at any one period. The History of England, Volume 1 James Mackintosh, Sir 2016-05-18 This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

A History of England, Vol. 1 of 3

Frederick Guest Tomlins 2018-10-06 Excerpt from A History of England, Vol. 1 of 3: Combining the Various Histories by Rapin, Henry, Hume, Smollett, and Belsham Cesar gives a great character of the valour of the Britons, and their going to battle with undaunted bravery. They fought for the most part in chariots. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
